They are easy to use, taking the complexity away from the user and putting it where it belongs, inside the equipment. Providing a crisp call or clear music is as easy as turning on the radio. The inputs are balanced but can be used unbalanced. <http://ecohost.ru/pics/images/compaq-cq5320f-manual.xml>

Phantom power can be switched on to provide power to condenser microphones. A 2tone chime can be configured to precede an announcement. Input 2 can be switched automatically if a signal is fed to the input i.e. if someone speaks into the microphone VOX activation. This provides a talkover or voiceover function. Input channels 1 and 2 also feature selectable speech filters to enhance the clarity of announcements. The user can choose a music source like a CD player or radio like the PLNDVDT, and set the level of music. These labels can then be mounted on the front, protected by the clear window. Another useful feature is to indicate preferred settings on the front panel by inserting colored pins at the preset levels of all knobs. You can then instruct a user to set all the controls to the silver pins to configure the system for their particular use. A second user can set all controls to the red pins for their configuration. It is a high performance, professional public address unit with modern state of the art features. They are easy to use, taking the complexity away from the user and putting it where it belongs, inside the equipment. Providing a crisp call or clear music is as easy as turning on a radio. The amplifier is also surprisingly affordable, without sacrificing features such as ducking, priority and flexibility. Some other unique features include an innovative labelling system with a printable template on disk included and insertable grey and red pins, to indicate optimal volume sets around the knobs. 2u rack ears included. Ask your question here. Provide a clear and comprehensive description of the issue and your question. The more detail you provide for your issue and question, the easier it will be for other Bosch PLE1MA120EU owners to properly answer your question. Ask a question About the Bosch PLE1MA120EU Do you have a question about the Bosch PLE1MA120EU or do you need help. Ask your question here Bosch PLE1MA120EU specifications Brand The distance between the two devices that exchange data can in most cases be no more than ten metres. When the volume exceeds 120 decibels, direct damage can even occur. The chance of hearing damage depends on the listening frequency and duration. An HDMI cable is used to transport audio and video signals between devices. Dust in hardto reach places is best removed with compressed air. This makes it possible to create a 5.1 effect with only 1 speaker. ManualSearcher.com ensures that you will find the manual you are looking for in no time.
