You should place an IR emitter on every device that you want to control using the Lifestyle To use an IR emitter with one device 1. You can use up to four IR emitters with the system. Not e If you need additional IR emitter extenders, contact Bose Customer Service. Refer to the address sheet included in the carton. When Bose enabled, pressing and holding turns off all zones. See “Setting up a second room with sound” on page 53. Steps through the available source selections. There is no need to aim the remote at the display. Makes a selection from List A. Makes a selection from List B. Makes a selection from List C. The Lifestyle set to display an image on a widescreenshaped TV. See “Controlling the HDMI Image View”. See “Controlling the HDMI Image View”. See “Controlling the HDMI Image View”. Occasionally, you may want to change to a different resolution. For example, if your HDTV is capable of displaying a 1080p source signal, you could change to a 1080p resolution. To manually tune a station, press the Tune Up or Tune Down button To quickly tune to a station, press one of the preset buttons. However, switches inside the remote battery case can be changed. Similar changes may be required for any additional remotes purchased for use in other rooms. For further information on switch settings refer to Not e “Changing remote control switch settings”. If another Lifestyle system nearby creates a conflict with your system, you can easily set a new house code in your media center and its remote controls with the following steps 1. TAB 2 English. For more information on your options, or to purchase additional equipment, contact your local Bose dealer. Or, to reach Bose directly, refer to the address list included with your system. Cleaning the media center and display Use only a soft, dry cloth to clean the outside of the media center and display. See “Operation” on page 30. Refer to the address sheet included in the carton.

Limited warranty This system is covered by a transferable limited warranty. Details of the limited warranty are provided on the Product Registration Card that came with your system. Digital audio con verts analog sound into a digital signal encoded as bits of information. HDCP is a form of Digital Rights Management licensed by Digital Content Protection, LLC, to control digital audio and video content as it travels across Digital Visual Interface DVI or High Definition Multimedia Interface HDMI connections. No part of this work may be repro duced, modified, distributed, or otherwise used without prior written permission. Manufactured under license from Dolby Laboratories. “Dolby” and the doubleD symbol are trademarks of Dolby Laboratories. If you are here, it was rather the case. However, you are not the only person having problems with keeping the operation manual of all household devices. Below are few guidelines regarding how and why you should collect the product manuals. These differ from each other with the amount of information we can find on a given device e.g. Bose Lifestyle VClass. However, we believe that the manuals should include the most important and needed information about Bose Lifestyle VClass, not to discourage the user to read. Obviously, if a device Bose Lifestyle VClass has multiple advanced functions, we will not avoid a high amount of information in this document. Then, it will be much easier to find it than look through the purchase boxes which have already been thrown away by you or any other of household members. It will be enough to clear the drawer once in a year and throw away any manuals of the devices you do not use anymore. Thus, you can avoid storing any unnecessary documents and keep only those which are valid. You can also download and print the manual Bose Lifestyle VClass to place it in your drawer. A hideaway media console lets you easily attach and conceal your sources, including those with HDMI. Its part of a unique Bose system design that lets you hide more equipment out of sight, so all you see and interact with is an elegant standalone display panel. Plus your picture is as crisp as the sound. Thanks to automatic video upscaling, which ensures movies and sports are always in the highest resolution your TV can accept up to 1080p over HDMI. Onebutton simplicity means all you press is a single source button to get the audio and matching video you want. And with BoseLink, you can use your system to easily enjoy more music in more places around your home including outdoors. Experience the new Lifestyle V30 system, and hear why Bose is the most respected name in sound.

<https://javisintlmedia.com/images/car-mp3-remote-control-manual.pdf>

The V30 system includes an intelligent Media Console, Display Panel, four Jewel Cube speakers, a center channel speaker, and Acoustimass Bass Module. See all items included in the Bose Lifestyle V30 Home Theater System. In addition to an unmatched surroundsound experience, the V30 system also offers 1080p upscaling of standard definition video content over HDMI, Bose Videostage 5 circuitry for enjoying surround sound from VHS, stereo, and mono sources, and builtin Dolby Digital and DTS decoding. Acoustimass module works in concert with the small speakers to deliver a fuller range of theater sound and effects. The patented Bose design produces low frequencies for all channels with no audible distortion. Magnetically shielded speakers allow for speaker placement in close proximity to your TV without interfering with the picture quality. Automatic video upscaling ensures movies and sports use the highest resolution capabilities of your display up to 1080p over HDMI. ADAPTiQ audio calibration system provides greater freedom of speaker placement. It analyzes the way your rooms dimensions and other variables affect sound, then automatically adjusts the sound of your Lifestyle surround sound system to the acoustics of your room. Bose Link wholehome audio technology lets you connect compatible Bose products to your Lifestyle home entertainment system for listening in as many as 14 additional roomseven outdoors. Proprietary Videostage 5 decoding and postprocessing circuitry, combined with digital 5.1 decoding and DTS, delivers a high quality, multichannel surround sound experience from practically any source DVDs, videocassettes, stereo CDs, even older mono TV shows and movies. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please try again later.

Christopher M. Rivera 5.0 out of 5 stars Clarity is excellent and no delay. Many input sources. Now they know what a Bose Lifestyle system is!! My only complaint is that the remote cannot be programmed to operate either my five year old Panasonic DVD Player or my General Instruments Cable box so Im stuck using three remotes. Ever since I saw the V20 I always dreamt of buying a V30 as the magnet inside V30 is 10times powerful than V20. Finally when I saw the price of 1699, it was too tempting not to miss the product. For me Black Friday came early in September in form of BOSE V30, Absolutely loving the product, design, features and of course its sound. BOSE 2nd to none! must point out the issues I have had with PCM 2.0 vis a viz 5.1 surround sound and instructions are not clear enough in my view to help sort this issue out. All in all, a 5 star pdt any day. Laundrytub. in
